CANADIAN URBAN TRANSIT ASSOCIATION

1981 EQUIPMENT LIST AND SUMMARY

Transit Vehicles Owned and/or Leased by Member Systems

as of December 31, 1981

LEGEND

Type of Vehicle

MB Motor Bus
TC Trolley Coach
LRV Light Rail Vehicle
HRV Heavy Rail Vehicle
CRV Commuter Rail Vehicle

Other Symbols

( ) Additional vehicles not in active fleet are shown in brackets. These figures are not included in any totals.

Note: Vehicles for the Disabled are not included in this list. Dial-A-Bus Vehicles used in regular revenue service or held in reserve as spare vehicles are included in this list along with regular Motor Buses (MB).

INTRODUCTION

The CUTA Equipment List for the Year 1981 and the Equipment List Summary provide details of the rolling stock owned and or leased by member systems as of December 31, 1981. While every attempt has been made to match these totals with the information derived from the General Statistical Questionnaire (and included in the Fact Book) the totals are not identical due to a number of uncontrollable factors. The reporting sample for the Equipment List and the Fact Book is not the same as a result of member systems reporting 1981 Equipment List data while at the same time not reporting 1981 information for the Fact Book (or vice versa). Secondly, some member systems have reported 1981 Equipment List totals which differ from the totals submitted for the Fact Book.

The information provided in the Equipment List includes the year, make, model, length, seating capacity and type of fuel utilized for all vehicles owned and/or leased at the conclusion of the 1980 and 1981 calendar years. The detailed Equipment List is available to all members upon request.

The Equipment List Summary provides totals for each system, for each Province, and for Canada as a whole. The average fleet age has been calculated for each system including individual averages by type of vehicle. Provincial and National fleet averages are also provided, however, caution is advised in comparing system averages to provincial or national fleet averages. These averages are distorted due the longer expected life of LRV's, HRV's and Trolley Coaches. Population and employee statistics have also been provided in the Equipment List Summary for comparative purposes.

Compilation of this report is a membership service of the Canadian Urban Transit Association. All questions or corrections concerning this report should be directed to Charles Wheeler, Analyst/Statistician.

SYSTEMS REPORTING

A total of 59 systems have provided complete information for 1980 and 1981 or 76% of the total membership. The following systems did not provide equipment list information in 1980 or 1981 and are not profiled in this report.

Airdrie	Kamloops
Grande Prairie	Chatham
Ft McMurray	Midland

ABBREVIATIONS FOR

EQUIPMENT LIST

I MAKE (MANUFACTURER)

a) Motor Buses

ARG Argosy (by Airstream)
BERL Berliet (by Renault) - assembled by Prevost Car Inc.
BLUE Bluebird of Canada Ltd.
CCF Canadian Car and Foundry Company
CHEV Chevrolet Motor Division (General Motors of Canada)
FARGO Dodge Trucks Division (Chrysler Corporation)
FLYER Flyer Industries Ltd.
FORD Ford Motor Company
FLEU Fleury Industries
FLX The Flxible Company
GMC General Motors of Canada Ltd. Diesel Division
GRMN Grumman-Flxible Corporation
HSC Hawker Siddeley Canada Inc.
IHC International Harvestor Corporation Ltd.
LEY Leyland Motors Limited
MCI Motor Coach Industries Inc.
MBZ Mercedes-Benz of Canada Inc.
OBI Ontario Bus Industries Inc.
PREV Prevost Car Inc.
RKV Rekvee Industries (by Chrysler Corporation-Dodge, Funcraft)
SUP Superior Coach Division, Sheller Globe Corp.
THOM Thomas-Built Buses of Canada
WINN Winnebago Industries Inc.
WCF Western Flyer Coach Ltd.

b) Sea Bus

CASE Case Ltd. (by Yarrows Ltd)

c) Trolley Coaches

GMC General Motors of Canada Ltd. Diesel Division
CCF Canadian Car and Foundary Company
FLYER Flyer Industries of Canada Ltd.

d) Light Rail Vehicles

CCF Canadian Car and Foundry Company
PULL Pullman Car Company
STL St Louis Car Company
S/D Stemens/Duwag
UTDC-HSC Urban Transportation Development Corporation (by Hawker Siddeley of Canada)

e) Heavy Rail Vehicles

BBD	Bombardier Ltd.
CV	Canadian Vickers Ltd
GRCW	Gloucester Railway Carriage and Wagon Company
HSC	Hawker Siddeley of Canada
MLW	Montreal Locomotive Works

f) Commuter Rail Vehicles

HSC	Hawker Siddeley of Canada

II TYPE

IU	Interurban
C	Coach
S	Suburban
ARTIC	Articulated
LOC	Locomotive
APCU	Auxiliary Power Control Unit
CLRV	Canadian Light Rail Vehicle
PCC	Presidents Conference Committee Cars

III TYPE OF FUEL

G	Gasoline
D	Diesel
E	Electric
P	Propane
